WHO **WE ARE**

Prosperi was founded in 1993 and is dedicated to helping organizations optimize their End-to-End Project Management Lifecycles through our dynamic software platforms, using Microsoft Project Platform as a foundation, to drive business results for the modern workplace.

OUR **EXPERTISE**

As organizations try to rapidly adapt to changing market conditions and constant innovation of new technology for digital communication and business optimization, Project and Portfolio Management solutions are essential enablers in driving transformation initiatives as they combine all business functions under one umbrella, allowing a one-stop-shop for all your needs.

OUR **SOLUTION**

Four comprehensive applications integrated into one solution: Teams Ideas

FREE! Build ideas campaigns and leverage the power of crowdsourcing to gain insights into new products, process improvement and user experience.

Turn ideas into structured proposals with the collaboration of experts and business areas through configurable workflows.

Select ideas that best fit strategic business objectives. Define evaluation criteria and simulate scenarios to prioritize your innovation portfolio.

Track projects in your innovation portfolio with a Microsoft Project Online-based solution with unique, pre-configured, and rapidly deploying features.
